

CAT TALES

ADOPTION APPLICATION

Completion of this application does not guarantee placement of a cat with the applicant. Our cat's health, safety and welfare are our foremost consideration. This includes but is not limited to the fact that we adopt to INDOOR ONLY homes and are strictly a NO DECLAW rescue. In order to be considered as an adopter, you must be 21 years of age or older, have identification showing your present address, have consent of your landlord, if you rent and be willing and able to spend the time and money necessary to provide proper care and any needed medical treatment for a cat.

CAT TALES ADOPTION DISCLOSURE

BUYER'S INSPECTION AND REFUND

“UNDER STATE LAW, YOU HAVE THE RIGHT TO INSPECT THE OFFICIAL HEALTH CERTIFICATE CONTAINING A DESCRIPTION AND MEDICAL HISTORY OF ANY CAT OFFERED FOR TRANSFER AND TO HAVE A COPY OF SUCH CERTIFICATE OF ANY ANIMAL YOU MAY OBTAIN.”

“UNDER STATE LAW, WITHIN 14 DAYS, YOU MAY HAVE THE CAT EXAMINED BY A LICENSED VETERINARIAN OF YOUR CHOICE. UNLESS SUCH EXAM INDICATED THE ANIMAL IS FREE FROM DISEASE, YOU MAY OBTAIN A SUBSTITUTION OF A SIMILAR ANIMAL OF EQUAL VALUE OR, AT YOUR OPTION, A FULL REFUND OF ANY MONEY EXCHANGED AT TRANSFER BUT ONLY IF WITHIN 2 BUSINESS DAYS OF SUCH EXAMINATION YOU RETURN THE DISEASED ANIMAL TO THE STORE (RESCUE) ALONG WITH A WRITTEN STATEMENT FROM THE VETERINARIAN THAT THE ANIMAL WAS NOT FREE FROM DISEASE.”

PLEASE INITIAL BOX AT THE END OF EACH PARAGRAPH

I understand that the vet who is issuing the Health certificate is giving an exam to make sure my cat does not have anything contagious **AT THE TIME OF THE EXAM**. If the cat you are adopting has FIV, they will be issued an FIV waiver. This consists of the same exam procedures, however FIV is considered contagious; therefore, the cat will be issued the waiver.

I understand that my newly adopted cat may develop a kitty cold (otherwise known as the herpes virus) after bringing my cat home. All cats have the herpes virus; however, many do not exhibit any signs or symptoms until they are stressed. Going to a new home and adjusting to a new environment can be stressful for some cats. I understand that my newly adopted cat can potentially give his/her kitty cold, if one develops, to any of the current household cats. Also, any of my current cats can give it to my newly adopted cat. Symptoms of a kitty cold are similar to a human common cold. (sneezing, clear, runny eye, discharge). If your cat has any thick discharge, a fever, becomes lethargic or is not eating, your cat **MUST** see a vet.

I understand it is required to take my newly adopted cat to my vet 2 weeks post adoption.

I understand that ringworm has a 7 to 21 day incubation time. I understand that a cat can be a carrier and break out with it. I understand ringworm is contagious to me and other pets in the household, and that if a human in the home in contact with the cat(s) has a fungus (athlete's foot, dandruff, or ringworm) that it **IS** transmittable to the animals and could cause the animal to breakout with ringworm.

I agree to take my cat to the vet if they are sick or to call the rescue ASAP if I do not intend to treat the cat. The rescue will have me surrender the cat back to the rescue.

Euthanasia: If you are at your vets office discussing euthanasia of a Cat Tales cat, we ask you contact us. There, sadly, are times that we will agree with you & your vet, other times we ask our vet to give a 2nd opinion. Sometimes, with no judgment to the adopter, the condition is treatable; however the adopter chooses not to treat. We ask that you surrender the cat back to Cat Tales and we will treat the cat.

I understand that cats can have parasites, even when they have been tested and dewormed. Cat Tales highly recommends that you have your cat retested in the near future, and also before introducing to a new pet in the household. If the cat has a parasite, your vet will give you medication to treat him/her.

I understand that Cat Tales kittens are fed Royal Canin kitten wet food 3x a day and Royal Canin kitten dry food for supplemental feeding. Cat Tales adults are fed Fancy Feast Chicken & Beef pates 3x a day and Royal Canin indoor dry food for supplemental feeding. I am agreeing to continue to give my newly adopted cat a good balanced diet.

I understand Cat Tales does not recommend covered litter boxes.

Cat Tales has a **STRICT POLICY** that all kittens and cats adopted from our organization must remain indoors, 100% of the time, for the duration of their lives. NO EXCEPTIONS. NO DECLAWING of the kitten/cat at any time If you do not plan on keeping kitty indoors or declawing, do not apply.

Your kitten/cat must travel in a carrier at all times. You must have a proper carrier with you at the time of adoption. Arriving with a cardboard box, a Tupperware bin, an open wooden crate, a laundry basket (all have actually happened) will result in the adoption being halted. Please bring a proper cat carrier with you at the time of adoption.

I authorize any use of photos taken of myself and/or party, including children under 18, for Cat Tales social media presence and website.

You can purchase the Wee Kitty Tofu litter that Cat Tales uses at Petsmart or Amazon.com. The food can be purchased at Chewy.com, PetSmart, or Petco.
